- Extensive interaction with customers, suppliers
- Managed Calibrations and quality assurance technicians

EXPERIENCE

Assistant Project Manager 07/2020 - Present

Advanced switching converters Gachibowli,

It is AS9100-D certified company, specially designed in production of various high-quality and reliability products in wide range of applications to meet a various Military Standards for national and international clients

Product Range:

Power Solutions like AC-DC CONVERTERS, DC-DC CONVERTERS with single and multiple outputs in wide range of power from 10W to 30KW in a nominal voltage 28V to 270V

- BOM Verfication, PCB netlist verification and First article inspection
- QTP,ATP and QAP Documentaion
- RCI,ASL and DRDI clinets handling and good communication with external and internal customers
- Incoming PCBA inspection
- Functional checks in board level and unit level testing
- scope and Climatic chambers handling
- Knowledge on ESS and EMI/EMC testing
- Cable Harness drawings understanding and test reports generation

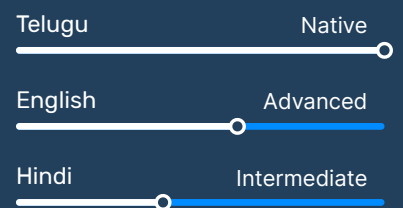

PASSIONS

- 💎 I am very passionate to learn new things everyday and that helped me to do better work, gaining more knowledge on different Products and as well as sharing with new peoples and trained for organization goals and application oriented
- 💎 Setting a new goal in every organization for developing prodcuts applications as well as increasing my growth
- 💎 I would like work as General manager of operations in any Top most Organization

SKILLS

- Ms-Office ·
- EMI/EMC testing Awarness ·
- Environmental Testings ·
- SMT Quality Engineer ·
- In Process Quality Engineer ·
- Quality Assurance · FQC ·
- Assistant Production Manager ·
- QAP and QTR Documentation ·
- ISO 9001:2015 and AS9100D Awarness

LANGUAGES

EXPERIENCE

Senior Quality Engineer 09/2017 - 06/2020

[Skyquad Electronics Private Limited](#)

Medchal

It is Leading PCBA and EMS manufacturing Company in various Home Appliances products like Everday Buls, opple Lighting, ARECA display Boards, EXZA TV setup Box

- First Article Inspection
- BOM Verification
- SMT Machine Buy-Off, Component inspection, Reflow-profile parameters , Components placing inspection with Lezand print
- stage wise products inspection and stage wise reports generation
- Daily meetings on product problems with respected teams and taking necessary actions
- Ensuring the Record of Rework and Rejection details in all stages with respect to production outcome

Quality and Testing Engineer 07/2015 - 09/2017

[Sulakshana Circuits Limited](#)

Miyapur,Bollaram

It is a leading printed circuit board manufacturing company in india and providing various gardes like, Commercial, Navy and Defense. providing single layes to multiple layers PCBS with different electrolytic platinig like Leadfree,goldplating over nickel.

- Master Board learning,
- PCB netlist verification
- Bare PCB continuity and Isolation checks preformed with different Automatic and manual Testing Machines.
- Track cut and Track shorts trace out
- To Ensure the Solder Mask, Legend Printing, Via Holes, Copper Tracks and Plating are properly Done

EDUCATION

B-tech electronics 06/2011 - 05/2014

[Mandava Institute of engineering and technology](#)

Diploma Electronics 06/2008 - 04/2011

[C.R.Reddy polytechnic](#)

SSC 06/1996 - 06/2008

[Sree vidya public school](#)

ACHIEVEMENTS

 Assistant Project Manager for TV setup Box

I was done first article inspection and testing without customer complaints,and got approval for further production
