

Phoenix Metal Craft
An immortal spirit of manufacturing

Special Brass Turned Parts

COMPANY PROFILE

Phoenix Metal Craft successfully established itself as a highly reliable manufacturer, exporter and trader of a range of automotive parts, precision brass fitting parts and manufacture any metal parts i.e. Brass, M.S, S.S, Copper, Aluminium etc, as per customer provided drawing, specifications or sample.

We are equipped with machinery consisting of header machines station header machine, CNC, Turning machine and highspeed roll die threading machine. We are quality conscious and at the same time competitive enough to be an attractive supplier to you. The Quality ranges that we manufacture are highly durable and chemical resistant.

We always welcome to the development of the new Products. We Manufacture Brass, Copper & Other Metal Components on the base of Sample, Drawing, or Standards reference. Our Products have confirmed the requirement of RoHS of European Standard.

OUR PRODUCTS RANGE

- Brass Ball Valve
- Brass Battery Terminals
- Brass Cable Glands
- Brass Earthing Equipments And Accessories
- Brass Electrical Plug Pins And Sockets
- Brass Fasteners
- Brass HRC Fuse Contacts
- Brass Insert
- Brass Neutral Link
- Brass Sheet Cutting And Pressed Parts
- Brass Standoff And Spacer
- Brass Terminals For PCB Connector Block
- Brass Hardware Products
- CNC Turned Parts
- Special Brass Turned Parts
- Any Kind of Metal Components As Per Sample, Drawing or Standard Reference

**Let's make something innovative together,
We welcome you to share a healthy long-term business relationship with us.**

Special Brass Turned Parts

Product Details & Specification

We specialize in producing critical parts with the tolerances as low as 0.03mm. We can turn any diameter right from 1mm to 50mm. Precision Turned Components are used in various electric gadgets, home appliances and in almost all industries in one way or another. We have a highly sophisticated machine which includes Auto trouble, Multi-Rotary Index machines & up to 5 axis SPMs which carries multi operations in single stage giving substantial production & world class quality.

An immortal spirit of manufacturing

Material:

Free Cutting Brass IS 319 Type (I) or BS 249 Type (I) or High Grade, Any Special Brass Material Composition as per customers requirement

Threads/Standards:

ISO Metric (MM Threads), BA, BSW (Inches), UNC, UNF or Any as per custom design.

Finish/Coating:

Natural, Nickle Plated, Tin Plated special brass turned parts or any coating as per customer specification.

Features:

Any kind of special turned parts can be made as per customer's specifications.

Length / Size:

Begins from M2 or equivalent threads and up to any size as per custom design or requirement
